Problem #1: Magical Parameters

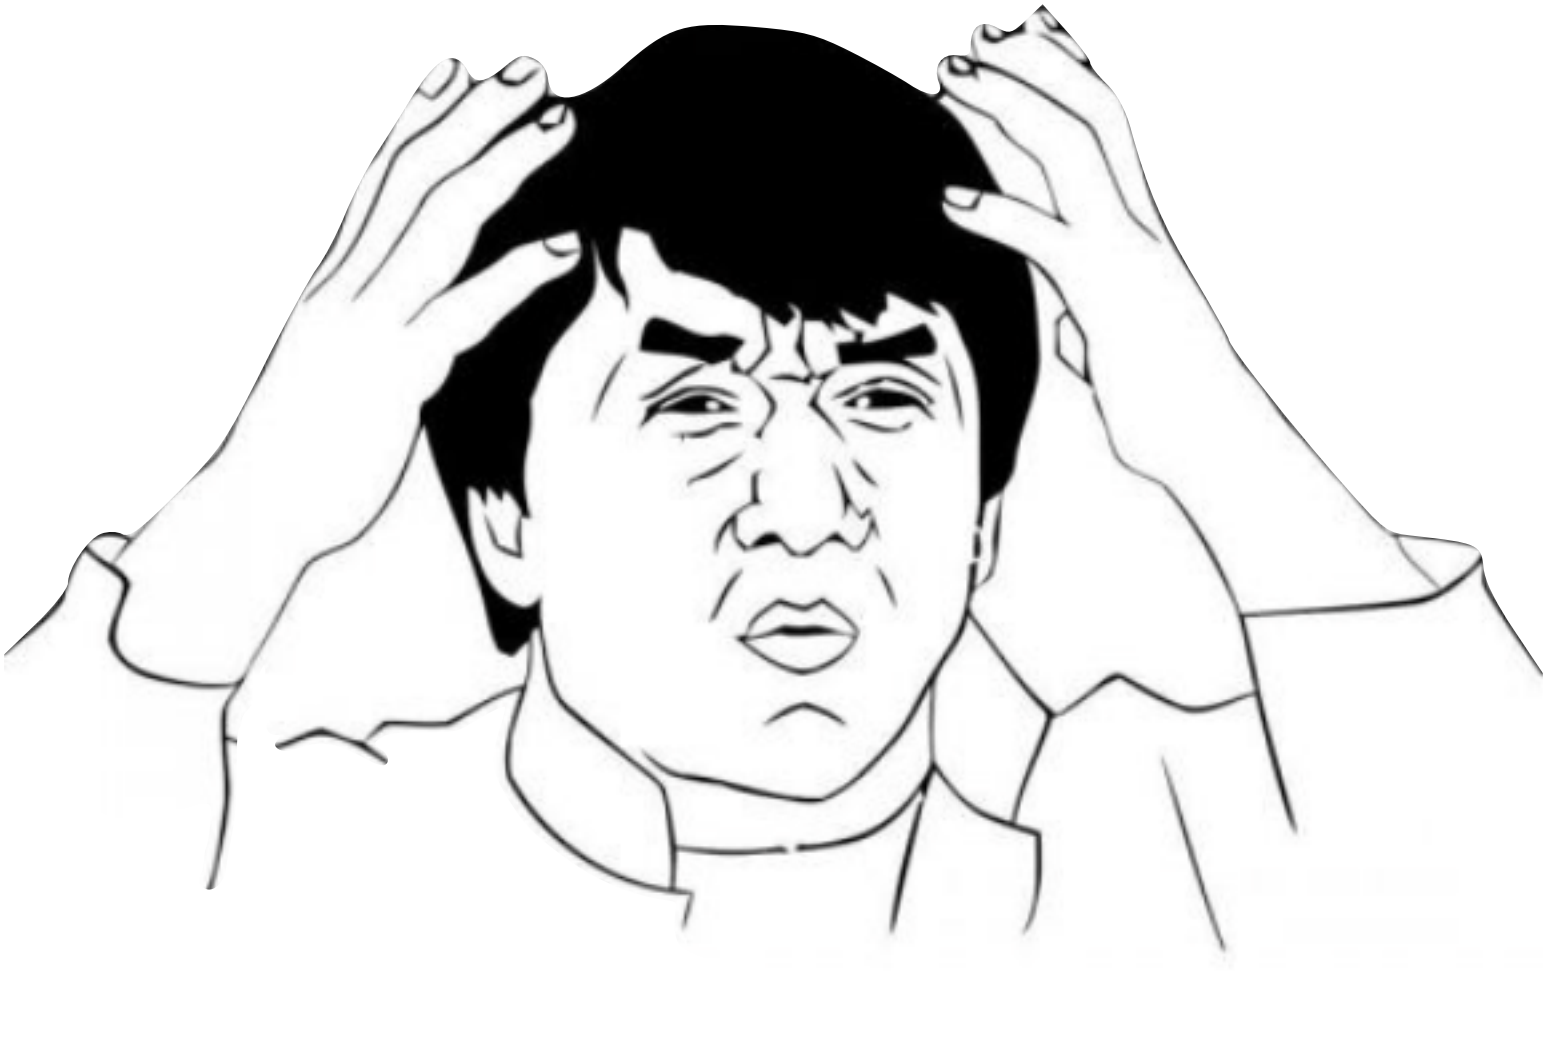
- Ex: `#* @post /echo/<msg>`

- Receives a **path** parameter `msg`

- Can also receive a **query** parameter `msg`!

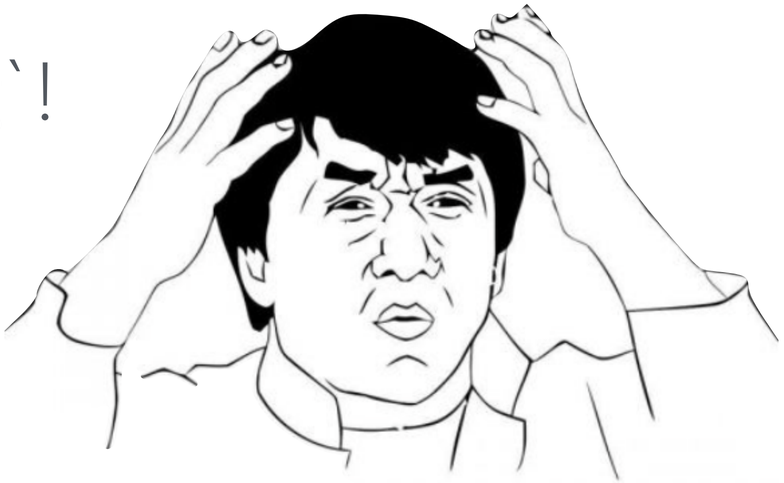
- Can also receive a **body** parameter `msg`!

plumber



Problem #1: Magical Parameters

- Ex: `#* @post /echo/<msg>`
  - Receives a **path** parameter `msg`
  - Can also receive a **query** parameter `msg`!
  - Can also receive a **body** parameter `msg`!



Ans #1: Clearly defined parameters
