• Path parameters

query

• request / response

# Ans #1: Clearly defined parameters

- Function parameters:

- Path parameters `#* @param NAME DESCRIPTION`

- ``query`` `#* @query NAME DESCRIPTION`

- ``body`` `#* @body NAME DESCRIPTION`

- ``request` / `response``

```
#* Echo back the inputs
#* @param msg The path message to echo
#* @query msg The query message to echo
#* @body msg The body message to echo
#* @post /echo/<msg>
function(msg, query, body) {
  glue(
    "msg: `{msg}`, ",
    "query: `{query$msg}`, ",
    "body: `{body$msg}`"
  )
}
```
